YEAR IN REVIEW - 2018

PRESIDENT'S LETTER | ESTABLISHED IN RIGHTEOUSNESS

Dear Beloved,

We are in awe of the displayed faithfulness of God. "Great is Thy Faithfulness" has become our heart song as we sing it with new-felt meaning. His displayed grace and mercy among us are sentimental. His spoken words over these last 25 years have become great substance in 2018, and we are deeply encouraged and privileged to be part of the Life In Abundance (LIA) story.

This past year brought us into a very exciting season of establishment. God's message to us for 2018 was a two-fold word: LIA will be established in righteousness and there will not be strife. This word was instructional, but came with a protective blessing. As has been the practice of God, he made known to us what he desired for this time. The LIA global family rallied together around this call. It's been what we have served under in 2018.

We witnessed countries and entities shift and step into empowering and inspiring relationships with our beneficiaries, partnerships, governments, and staff teams. Systems that support the "fields" and "harvesters" have grown in excellence for God's glory. Righteousness is what the Lord invited us to pursue at every level as we work to complete each piece of establishment. Throughout the year, we were focused and intentional to obey the assignment for this season.

To share some highlights, our program reach has grown exponentially, and we celebrate the new and ongoing impact that we've seen. In our clear calling, we empower local churches and church leaders to propagate transformational development globally. Our global impact grew in 2018 through international conferences, collaborative relationship with like-minded organizations, and intentional discipleship of our church partners.

It has also been wonderful to see the fulfillment of what God promised: LIA will train as many leaders as there are grains in a handful of sand. Witnessing the establishment of our two training centers has fulfilled the vision the Lord has given us.

With anticipation, we foresee these centers becoming sought after places of empowerment.

The passing of time has not reduced the intensity of the promises of God. Twenty-four years after my time of studies in Switzerland, 2018 became a faith milestone for me as God took me back to fulfill his work by establishing LIA-Europe in Switzerland. This, indeed, completed the partnership offices that were to be established after the UK and US.

The highlight of God's faithfulness in 2018 was the launch of LIA Blue Wings. Being a part of this vision, which God revealed even before LIA was birthed, really is a sweet celebration in this season of establishment in righteousness. Indeed, 2018 will be regarded in the LIA story as the year when the great faithfulness of God was on full display.

It is humbling to experience this season, raising a cornerstone of what God will continue to do in the generations to come. It's no wonder why we sing, "Great is thy faithfulness." Together, we praise God for all he is doing to fulfill our establishment. His consistency is assuring. We are certain that, although we covered so much ground in 2018, our growth will accelerate as we serve in the next eight months with the posture of establishment. These are exciting times.

Thank you for being part of the work of transformational development through Life In Abundance, especially in this season of establishment. Together we celebrate our shared, profound impact in 2018.

For his glory,

Dr. Florence Muindi
President & CEO

ESTABLISHED IN RIGHTEOUSNESS

"In righteousness you will be established: Tyranny will be far from you; you will have nothing to fear. Terror will be far removed; it will not come near you. If anyone does attack you, it will not be my doing; whoever attacks you will surrender to you." Isaiah 54:14-15

God has been so gracious to offer a word for Life In Abundance that extends through the fall of 2019. The Lord has promised a season of establishment in righteousness without strife for LIA as a whole. What, then, would an established LIA look like?

An established LIA will be one that has completed the "1704" vision that God has given our founder and CEO, Dr. Florence Muindi. This number holds fruitful significance for us as an organization. The "17" refers to our presence in 17 countries: 12 program countries in Africa and 2 in the Caribbean, in addition to the 3 locations where we have ministry support offices (USA, UK, and Europe). The "04" stands for our 4 LIA entities: 2 training centers (in Kenya and Jamaica), our headquarters, and our airline, Blue Wings.

The word is established in righteousness. Each LIA country and entity will pursue righteousness through right relationships with all stakeholders. Righteousness is what the Lord has invited us to pursue at every level. We entered into this in 2018, seeing clearly how God has been bringing his word to fulfillment. Pray with us as we seek his gracious guidance in continued establishment.

WHY WE SERVE

You have basic, human needs. As long as you're alive, you will face thirst, hunger, and a yearning for safety and belonging. But what if you didn't know where to turn to fill what is empty? What if you didn't have access to healthy resources? When you lack opportunities to meet your physical, social, emotional, and spiritual needs, the enemy steals joy and kills hope.

For many living in Africa and the Caribbean, this is reality, but it doesn't have to be. LIA empowers the local church to restore health, renew hope, and inspire lasting transformation for the world's most vulnerable communities. We see a day when they have life and have it in abundance.

WHO WE SERVE

"He defends the cause of the fatherless and the widow, and loves the foreigner residing among you, giving them food and clothing." Deuteronomy 10:18

The continent of Africa is home to many of the world's most marginalized communities, with half of the population not having access to basic human needs such as nutritious food, clean water, shelter, education, and more. 47% of the people live on \$2 or less a day. In Haiti, 58% of the population is considered poor, currently making it the poorest country in the Western Hemisphere. In Jamaica, nearly 20% of the population live below the poverty line, facing racial inequality, gang violence, and natural disasters that all threaten their security.

We take seriously Christ's call to serve the least of these. Through the gospel, there is hope of transformation. LIA walks alongside the poorest communities, families, and individuals in Africa and the Caribbean to holistically address their needs and bring lasting change. Just as our Lord defends the cause of the fatherless, the widow, and the foreigner, so we seek to address injustices and watch God transform sorrow to joy and fear to hope.

WHERE WE SERVE

Since the beginning of Life In Abundance, we've witnessed God's miraculous work. We walk with more than 230 churches in 14 countries throughout Africa and the Caribbean, serving all people regardless of religion, race, ethnicity, or gender.

As we walk with the Lord and seek his guidance through prayer and petition, we claim spiritual authority over the territory he grants. We reference our work in three ways: **New Territory**, **Active Territory**, and **Ongoing Impact**.

Each of these categories represents multiple countries and communities, and each community is unique in the amount of time served, programs launched, and level of community ownership.

Landscape | Ethiopia

COUNTRIES WE SERVE

New Territory

Countries of the Lakes Region—including DR Congo, Burundi, Rwanda, and Uganda—have recently been opened to us in God's timing.

Active Territory

Communities that we currently serve—where programs are in process to bring wholistic transformation—include Kenya, Ethiopia, Sudan, South Sudan, Eritrea, Djibouti, Somalia, Somaliland, Egypt, Jamaica, and Haiti.

Ongoing Impact

Kibera, Kisumu, Makueni (Kenya), Adama and Addis Ababa (Ethiopia) are just a small list of communities that we have exited that continue to thrive and take ownership of their transformation.

Village | Kenya

HOW WE SERVE

Our development model builds on the spiritual truth that the gospel brings changes in the spiritual, social, and material dimensions of a community to wholistically improve the human condition. We utilize an integrated approach to cultivate community ownership of the transformations that take place. Local ownership and responsibility are necessary for sustainable transformation of a community. We long to faithfully steward the vision of our model that the Lord graciously granted to our founder, Dr. Florence Muindi, through the following steps:

3 STEPS TO DEVELOPMENT

1. ENGAGE LOCAL LEADERSHIP

We enter a community with the Lord's guidance and ask that he reveal "men and women of peace." We gather the local pastors and community leaders to cast vision for their communities.

2. INVITE CHURCH PARTNERSHIP

We empower the local church through our wholistic development model to address the spiritual, social, and material needs of the community.

3. CULTIVATE OWNERSHIP

After three years, we transition out of a community so that individuals from within the church and community take complete ownership of their transformation.

WHY THE CHURCH?

All of our transformational development initiatives originate from the established local church in the communities we serve. We partner with local churches because we believe Christ has ordained his people to carry out the purposes of God.

The church is familiar with the problems of the community and can bring sustainable solutions to meet their needs. We know that long after our work is complete within a community, the local church remains to continue the work.

ECONOMIC EMPOWERMENT

Earning capacity and savings are the basis for alleviating physical poverty. When someone can provide for their family, dignity and self-worth are renewed. We tactically accomplish this piece of our model through the following initiatives:

- business micro-loans
- savings and credit associations
- income-generating activity training

SOCIAL ENGAGEMENT

Social engagement is the basis for breaking the poverty cycle. We walk alongside local leaders to promote justice and restoration in their communities. We tactically accomplish this piece of our model through the following initiatives:

- orphan and vulnerable children care
- home visits
- projects that support the community
- community member reconciliation

COMMUNITY HEALTH

Health is the basis for life. Disease prevention and health promotion education are necessary to wholistically restore community health. We tactically accomplish this piece of our model through the following programs:

- primary health care services
- health and hygiene education
- HIV/AIDS testing and counseling
- community-wide famine relief resources

EDUCATION

Education is the basis for sustainable development. Our initiatives include community-wide seminars and targeted educational interventions. We tactically accomplish this piece of our model through the following programs:

- early childhood development programs
- financial support for educational resources
- community-wide trainings

10-YEAR VISION

In May of 2016, the Lord led LIA leadership to cast a 10-year, high-level vision for the establishment of Life In Abundance. This vision spans from 2017-2026 and gives unified guidance for all of our programs and countries to pursue. The following are the five high-level goals we strive to accomplish by 2026:

- Equip 1,000 partner churches
- Impact 700,000 poor and vulnerable people
- Provide sufficient support for programs, coordination, and stewardship through LIA Headquarters and LIA Blue Wings
- Equip like-minded organizations and ministries through our training centers and Global Missions Conference-Africa
- Steward connections with LIA partners who understand our model, engage in the work, and emulate shared principles

5-YEAR STRATEGY

The LIA International Board commissioned two five-year strategic planning processes in order to tactically accomplish the vision God has given us. We're currently in the midst of that first 5-Year Strategic Plan that spans from 2017-2021. Our call, aspiration, and discernment for our current five-year plan is pursuing wholistic establishment as an organization. At the end of these five years, we hope to have accomplished the following things:

- Equip 473 partner churches
- Impact 301,779 poor and vulnerable people
- Establish systems for coordination and support of LIA Blue Wings
- Equip 2,000 individuals through our training centers and Global Missions Conference-Africa
- Form relationships in the US, UK, and Europe with like-minded partners who deeply engage with LIA and contribute a consolidated income of \$5 million to support our work
- Host several forums to share the LIA model in order to advance the global impact of wholistic transformation

MULTIPLYING IMPACT

Muhaweni and Emanuel are married and live in Rwanda. With four children, they've worked through many trials to try to put food on the table for their family. Meeting monthly rent on time was a constant stress, and neither Muhaweni nor her husband had a sustainable income that provided enough financial support for their family. Muhaweni was selling potatoes, tomatoes, and vegetables, while Emanuel was trying to sell second-hand clothing. They were on the street every day trying to make ends meet.

"My husband and I barely had enough income to provide food and meet all the needs of our family," Muhaweni explained. "We would usually spend seven days a week on the streets, but at the end of the day we weren't able to make much money at all."

When they had nearly lost hope, Muhaweni and Emanuel decided to register for a training offered by their local church, God's People Church, to learn the basics of micro-enterprise. This church had been empowered by LIA's training on how to equip locals to grow their businesses with church-based loans. Upon their enrollment in the training, Muhaweni and Emanuel both joined the church's savings and loan group and were given a small loan to assist them with their businesses. The couple realized the possibilities for growing their businesses with the help of the training and loans.

Muhaweni used her loan to lease a storefront for her business and Emanuel's loan helped him boost his inventory of clothing, doubling his daily sales. Muhaweni saw significant transformation after the

training, saying, "I was so resistant and was not sure how to improve my family's business. Thank God that the training has opened my eyes and I'm now able to see how things really work and even advise others in my church."

Recently, Muhaweni and Emanuel had enough money to build their own 4-room house. Being relieved from the demand of paying monthly rent is a huge breakthrough in their lives. They're now renting a kiosk for their businesses and have it stocked with a variety of goods.

Both Muhaweni and Emanuel serve at God's People Church. Emanuel teaches the Word of God and Muhaweni is a deacon and member of the choir. Freed from the worries of finding a sustainable income, they're now able to generously offer both their time and resources to their community. The couple helps their church's evangelism activities by covering transportation costs for those who go out to evangelize. They're now well known for their consistent contribution in supporting economically-challenged families in their church because of the way God has transformed their lives.

We love stories like Muhaweni and Emanuel's because they show the way that our model wholistically transforms people's lives and the multiplying effect of that impact. Muhaweni has said herself that her transformation has been fruitful. "I am so proud that I've become a role model to many women who are struggling in their business," she said. "There were many times I wanted to stop, but it worked out well over time."

HOW NEEDS WERE MET

Economic Empowerment

The couple joined their local church's savings and loan group, investing in their small businesses in order to make sustainable income.

Social Engagement

Being given better financial resources freed Muhaweni and Emanuel to give generously and serve others in their community.

Community Health

Muhaweni and Emanuel have improved their family's health by providing consistent meals and a stable place to live.

Education

Muhaweni and Emanuel learned the basics of micro-enterprise and possibilities for growing their businesses. They now teach others how to do the same.

A FAMILY RESTORED

Birke is a young, single mother of her eight-year-old son who was struggling to survive on her own in Ethiopia. Birke and her son lived together in a small room that she rented, but she didn't have enough income to support them each month. Without the job or resources she needed, Birke struggled to care for her son in the ways she longed to. Birke felt hopeless and didn't know where to turn.

Life In Abundance partnered with a church in Birke's community and empowered the church to implement an orphan and vulnerable children (OVC) initiative to assist children in the community. Birke was so thankful to enroll her son in the program and receive support. The project provided various food support, sanitary materials, education resources, school uniforms, and other clothing and shoes for her son.

Birke then chose to take part in a basic business skills training seminar also initiated by the church. The business skills project assisted Birke with a small fund to help her launch and sustain a small business. Birke now sells clothes on the street and her consistent income has enabled her to cover the cost of food, rent, and other living expenses. She's building up her savings and is in a position to cover her son's school expenses once the OVC project phases out.

Birke is a beautiful picture of the Lord's redemption through LIA. She has regained confidence and dignity, as she's now able to support and provide for her family. Birke's future plan is to expand her business and find a small storefront to market her goods.

Perhaps the greatest transformation of all is Birke's spiritual transformation. After joining this project, she accepted Christ and has been attending a discipleship course at her church. Even her social interaction with neighbors has improved! Praise the Lord that he's empowered Birke through our training to restore the dignity he created her to have.

HOW NEEDS WERE MET

Economic Empowerment

Birke was trained in basic business skills and given a small loan, making it possible for her to run a sustainable business.

Social Engagement

The church told Birke about the good news of Jesus, which transformed her life and improved how she interacts with her neighbors.

Community Health

Through the OVC initiative, the church provided support to help Birke and her son improve their living conditions.

Education

The project provided the resources needed for Birke's son to stay in school and get an education.

A HEALTHY HOPE

Jackson is a husband and a father of six children in Narok, Kenya. For years Jackson was plagued by sickness to the point of being wheelchair bound, unable to support his family. Too sick to work or maintain a stable job, his only option to feed his family was to beg. His neighbors were gracious toward his suffering and offered to share food with his family.

Jackson had little hope that things would ever improve in his life as the consequences of poverty weighed heavily on him.

As time progressed, Jackson's health improved until he was able to walk. Although his health improved, he wasn't able to start farming again because he didn't have any seeds to get started.

In 2015, a major milestone occurred for Jackson when a member of a local church shared the gospel with him and invited him to church. Jackson gave his life to Christ and began consistently attending the church. Jackson's physical and spiritual transformation was miraculous to everyone who knew him.

Agnes, a community health evangelist (CHE) who'd been trained by LIA, explained Jackson's transformation, saying, "He was down and had no

hope; however, since he received Jesus Christ as his Lord and Savior, I am amazed what God is doing in him."

Jackson was one of the beneficiaries selected by LIA's partner church, Full Gospel Church of Kenya. In 2017, he received three goats as start-up capital, and today he has 15 goats. For the first time, he sold three of the fully-grown goats for \$216, giving him a \$141 profit.

Using this money, he was able to buy seeds to plant on his long-time unused farm and hired tractors to plow the land. Throughout this year, he's produced 78 sacks of corn and sold 50 sacks at \$14.00 each. He now has eight sacks of maize to feed his family for a year, enough sacks saved to plant next season, and 20 sacks he plans to sell in the market.

"I am so happy because my future is so bright," Jackson says as he reflects on his life. "I have hope that things will be even better. Although I've been so blessed since I came to know Jesus, some people think that I got all these blessings by worshiping other gods. I want everyone to know that it is Jesus who blessed me both economically and health wise. I thank the Lord for changing my life miraculously." Praise God with us for Jackson's wholistic transformation!

HOW NEEDS WERE MET

Economic Empowerment

Jackson's church was able to provide him with three goats as start-up capital to grow his business.

Social Engagement

Jackson's physical and spiritual transformation showed God's miraculous power to everyone around him, and Jackson is giving Jesus the glory.

Community Health

Jackson is able to provide food for his family and others in the community through his farm, as a result of his improved health and the support he was given.

Education

Jackson has learned he can have hope of a bright future in Christ and wants to share what he's learned with others.

Koki & Tawi | Blue Wings pilots

LIA | BLUE WINGS

"Declare his glory among the nations, his marvelous deeds among all peoples." Psalm 96:3

Blue Wings Limited, as a for-profit aviation company, is a treasured vision of Life In Abundance that the Lord has brought to fruition these past couple of years. It exists to declare God's glory and marvelous deeds among the nations and to all people as Psalm 96:3 commands us.

Through Blue Wings, we aim to reach some of the most remote communities in East Africa with priority care by providing affordable and efficient air services to humanitarian aid and relief agencies. Blue Wings is currently equipped with a four-person staff in order to accomplish this mission.

As we finalize our certificates and licenses for Blue Wings, we've leased out our aircraft to a company for flights in South Sudan to serve the area. Once we've received the proper certification and licenses, we'll be able to independently operate our aircraft.

We're looking forward to seeing all the ministry opportunities the Lord offers us as we seek to steward the Cessna Caravan aircraft for his glory. Join us to praise the Lord for the fruit of Dr. Florence's vision coming to life through Blue Wings.

Dr. Florence | Blue Wings dedication ceremony

LIA | EUROPE

As we reflect on this past year and how God has been establishing LIA in righteousness, we are grateful to announce the official launch of our European office in Geneva, Switzerland, with Christina Vacondio in the role of LIA-Europe Director.

From the beginning of Life In Abundance, the Lord laid the United States, United Kingdom, and Switzerland on our hearts as partnership countries. In casting vision within our 5-Year Strategic Plan, we determined that an established LIA will be one that partners closely with these three nations. LIA has been registered in the US since 2002, and in 2017, Jonathan Lamb was appointed as the LIA-UK Director. In recent years, God's hand has also been clearly on us starting an office in Switzerland. We've seen how he has been preparing the way for LIA.

Switzerland has been a place close to Dr. Florence's heart for decades, ever since she attended school there before Life In Abundance existed. In the past four years, LIA has done site visits to Switzerland to pray over what God has in store. With the help of connections

made during these trips, LIA became registered as an official organization in the country this past year, a Swiss member was added to our board, and Christina Vacondio stepped into her role as the LIA-Europe Director in December.

Christina (a half-German, half-Italian, who grew up in West Africa) is an outside-of-the-box thinker, who enjoys a challenge, and is passionate about what God is doing through LIA. We believe she is uniquely gifted to help us navigate the multicultural dynamics of Switzerland and the other European nations surrounding it.

Please pray that as we go together to serve the world's most poor and vulnerable, we wouldn't lean on our own understanding. Ask the Lord that we'd continue to be granted favor and wisdom in order to walk in righteousness and live up to the potential this partnership has to make a difference in his kingdom.

LIA | UNITED KINGDOM

This year, God has graciously provided LIA-UK office space in Lewes, England and the ability to hire Charlotte Homewood as our LIA-UK Executive Assistant. We have also moved forward in building relationships there as our UK Director, Jonathan Lamb, is working faithfully to develop partnerships with three churches and a number of individual supporters and donors.

Jonathan and Dr. Florence spent a good portion of 2018 engaging potential partners across the UK with road trip visits to London, Oxford, Glasgow, Edinburgh, Peterborough, Blakeney, and Lewes. As we look forward to 2019, the Lord has already revealed fruit from our labors. We've increased our members for the LIA-UK Trustees and Council, we've organized two LIA-UK site visits to Kenya that have resulted in financial support for new economic empowerment programs, and we've received a three-year grant in the UK to support community transformation in Kenya. God is doing great things around the world and we're thankful to have a front-row seat. Pray that the Lord would establish the work of our hands as we go together for his glory.

BEFRIEND PROJECT

Strategic partnerships are so central to how we function at Life In Abundance. We long to leverage the diverse gifts of individuals, organizations, and churches to best serve the Kingdom of God in unity. In 2018 we began a partnership with LifeLine Christian Mission in order to mobilize the congregation of a local US church partner to support our work. As a ministry, LifeLine generously extends hope to create possibilities for those who feel trapped by the physical and spiritual barriers of poverty.

One specific way we initially collaborated with LifeLine was to work on a food packing, famine relief initiative together. This project directly engaged a local US church partner in the empowerment process of Life In Abundance. LifeLine equipped the church with nutritious food resources to pack and deliver to communities that LIA serves.

The most recent project we've started to pursue with LifeLine in Adjumani, Uganda is called BeFriend. Realizing the growing and immediate needs of refugees in this area, LifeLine and LIA have collaboratively envisioned BeFriend to mitigate the challenges of 200 orphans and vulnerable children (OVC) and their families in one of the refugee settlement camps in Adjumani.

Through this project, LIA has begun empowering two churches in the refugee camp in Adjumani and one church outside the camp where some of the refugee settlements are located. Following a one-day envisioning session, LIA provided training to equip the churches with basic knowledge and skills to initiate, implement, and monitor wholistic ministry in their context.

The training focused on community health evangelism, leadership, community and resource mobilization, community needs assessment, project planning and management, and monitoring.

We've exhorted one of our US church partners to financially support this cohort of families in Adjumani, Uganda for 3 years of empowerment. More than 250 members of the US church partner committed to supporting and empowering the cohort in Uganda. While LIA is directly engaged in the day-to-day implementation of the project at the community level, the US church and LifeLine will continue to mobilize resources required for the project.

The mobilization won't stop there! Our vision is to continue to equip the members of this US church to be directly involved with international missions through short-term mission trips, prayer, resource support, and program updates and reports.

The foundation of our partnerships is always centralized around equipping the Church to pursue kingdom work. Whether it's mobilizing church members to support and contribute to our work in Africa and the Caribbean, or training churches in the communities we serve to have a greater impact in the fight against poverty, we love walking alongside the Bride of Christ. We look forward to advancing our relationship with LifeLine and other like-minded organizations to equip local churches and mobilize individuals and communities to serve the Lord with their gifts and resources.

FINANCIALS

EXECUTIVE DIRECTOR'S LETTER | JOINT WORK & JOINT HERITAGE

"For a social sector organization...Performance must be assessed relative to mission, not financial returns. In the social sectors, the critical question is not 'How much money do we make per dollar of invested capital?' but 'How effectively do we deliver on our mission and make a distinctive impact, relative to our resources?'"

- Jim Collins, *Good to Great and the Social Sectors*

We share this good report from the nations with two primary thoughts: we have collectively been invited into this joint work and this is our joint heritage.

We have collectively been invited into the work of empowering the local church to break the cycle of poverty in the poorest and most marginalized communities in the world. However you have engaged—prayer and fasting, a visit to a community, advocacy in sharing our mission and story, or financial giving—this report is testimony of the Father making a way, and the work we have been invited into together.

Because our joint work is the Father's work, we have a joint heritage; a joint inheritance. Matthew 6:19-21 speaks of "storing up treasures in heaven." We believe that one day, when we all see Jesus face-to-face, we will be able to see and experience together our joint inheritance in full through testimonies of salvation, the lifted gazes of widows and orphans, hope and dignity that's restored, fathers taking their place in leading their families and communities, and the thousands of local churches positioned and empowered to be agents of change and transformation within their communities. There is no end to this joint inheritance we will receive together.

Honored and thankful to go together,

Carley Mueller Buckingham
Executive Director

PROGRAM VS. NON-PROGRAM EXPENSES

Life In Abundance is a member of the
Evangelical Council for Financial Accountability.

THANK YOU

We've seen God bring transformation in 2018 as we've walked together with you to defeat poverty and restore dignity in Africa and the Caribbean. Your engagement with LIA gives the gift of empowerment to local churches so that they can break the cycle of poverty in their communities, creating lasting change that transforms lives.

GET INVOLVED

1. BECOME A PRAYER PARTNER

Prayer is the cornerstone of the work we do. Without prayer we cannot go into the communities we serve and accomplish the work the Lord has called us to do. We must partner in prayer to continue the work.

2. GIVE FINANCIAL SUPPORT

We invite you to financially support us within the communities we serve so sustainable transformational development continues to take place and communities are changed forever.

3. SHARE IN THE WORK OF LIA

Whether you take a trip with your church, participate in a Training of Trainers seminar, or join our LIA Summer Internship, there are many ways to share in the work of LIA.

Visit us online at lifeinabundance.org for more information.
